

Appendix 48: Librarians' Issues

2014 Needs Assessment and Member Input

INDIVIDUAL MEMBER SUGGESTIONS

The Appendix- 48 Advisory Committee is charged with making recommendations to the UUP leadership in support of the upcoming contractually negotiated discussions of issues specific to librarians. During discussions with the State, UUP is frequently asked to provide examples and details to support our positions. The most convincing arguments often come from our members' anecdotal stories. Please describe the details of a need or problem you feel could be addressed through contract negotiations. Careful review of members' suggestions will be a critical component of the Appendix - 48 needs assessment and information gathering process leading up to the committee discussions with the state.
