UUP is asking you to assist with the growth and development of a newly announced Ambassador’s program that will make our union stronger. By serving as an Ambassador you agree to serve as an advocate for the union. You will be a key contact for 10 members you choose by seeking information from them, as well as provide information about the union and its services.

We are asking that you name 10 members that you will work with over time. Using a cellphone app that we will provide to you, you’ll be able to assist us by gathering information about our union membership. On the inside panel, please provide your information. You can then write the 10 UUP member names that you would like to work with on the inside page. These names can be people you work with in your unit, or across the university. Once we have this information, we’ll contact you with your login information and training materials to use the app.

As the program goes on over time, we’ll be asking that you periodically contact your 10 selections to ask further questions. These questions may consist of likes of the union, improvements needed, and inquiries. Your assistance will make us stronger ensuring accurate methods to communicate with our membership, as well as providing them up-to-date accurate information about the benefits of belonging to a union.
