Say NO to Draconian Parking Fee Increases at Downstate Medical Center

We, the undersigned employees of SUNY Downstate Medical Center strongly oppose the DMC Administration's plan to impose major parking fee increases.

The Administration's proposal makes parking unaffordable and shifts costs to employees that should be covered by SUNY.

Paying to park at work shouldn't cost a fortune. But the Administration's proposed parking increases would mean that employees who park to work pay $217 per month - more than **three thousand percent (3,000%)** increase from what they now pay to park.

It is unnecessary and unfair for the hospital's administration to impose such a huge increase on its employees.

Such a steep parking fee increase amounts to a pay-cut for Downstate employees. Don't decrease our take-home pay simply so we can park to get to work!

We call on Downstate and SUNY to work with the Unions to ensure that all Downstate employees, regardless of shifts, have access to affordable parking options.
